A family tradition of butcher-delicacies

**Project Name:** Embutidos Artesanos jvillà, Girona, Spain

**Products:** Stonclad<sup>®</sup> UR • Stonkote<sup>®</sup> HT4 • txt 3 •

Stonshield SLT

### Butcher-delicacies

Embutidos Artesanos J.Vilà, S.L. was founded in 1984, following the family tradition of butchers. Embutidos Artesanos is one of the great players of the meat industry of Northern Catalonia. The company is run by the same family members with a group of professionals with extensive experience acquired over the years. They always try to maintain the "Artisan" way of processing.

The current plant, recently expanded, is equipped with high technology. This technology ensures that the hygienic working method is monitored throughout the entire production process. This starts with the processing of the raw material, passing through the cold rooms, production rooms, drying rooms or cooking area until reaching the expedition. Continuous research is carried out to improve products in order to satisfy their customers, always taking the character of Artesanos into account.

### A high-quality food safe flooring solution

The project consisted of a new 4,000 m<sup>2</sup> factory. The client was looking for a high-quality food safe floor for the processing room, cold rooms and locker rooms for the staff.

---

**As a solution for their request we offered our Stonclad UR high performance mortar system for the production areas and Stonshield SLT for the locker rooms and canteen.**

---

They also requested a high aesthetic look combined with chemical and thermal shock resistance and easy cleanability. In their old facilities they had acrylic floors with many cleaning problems.

## The Stonhard Difference

Stonhard is the unprecedented world leader in manufacturing and installing high-performance polymer floor, wall and lining systems. Stonhard maintains 300 Territory Managers and 175 application crews worldwide who will work with you on design specification, project management, final walk through and service after the sale. Stonhard's single-source warranty covers both products and installation.
